Subject: Gun Controller Sample Program

ABSTRACT

Document Release 1.0 for Run-time Library Release 3.7

DETAILS

After using the libgun functions to detect the position of the TV
screen towards which the gun controller is facing, this program will be
displayed on the screen.

• Execution method
      psymake
      resetps
      run main

• File explanation
      makefile.mak   make file
      main.cpe   execution file
      main.c   main routine

• Gun controller operation is as follows:
Trigger button: displays the location in which the gun is
                        pointing
      SELECT button: termination
